

Charlton Park Crematorium

Welcome to Charlton Park Crematorium

Charlton Park Crematorium is a serene sanctuary, offering a peaceful space for heartfelt goodbyes and moments of reflection. Surrounded by beautiful parkland, it's the perfect setting to honour the life of a loved one in a way that feels personal and meaningful.

Designed with care and respect, our crematorium ensures every farewell is unique. To provide families with undivided attention, only one service takes place at a time, giving you the time and space to celebrate your loved one's life in privacy and tranquility.

*"We chose
Charlton Park for Mum's
funeral because of its
beautiful location. But what
really made our day
was the staff, genuinely
thoughtful and
super helpful."*

Benedict

A Place for Every Farewell

Charlton Park offers flexible spaces tailored to your needs:

The Ceremonial Hall

A light, open venue able to accommodate over 100 people, ideal for traditional services or bespoke celebrations of life.

Whether it's a cremation service, a ceremony before a burial at Charlton Cemetery, or a memorial gathering, this space welcomes families of all beliefs and traditions.

The Oak Room

For intimate, small-scale farewells, this cosy space offers a more personal atmosphere for your loved one's service.

Those who are unable to attend

No matter your choice, both spaces are equipped with the latest technology to support personalised tributes, live streaming, and recordings for those unable to attend in person.

Thoughtful Services and Accessibility

Saying goodbye is deeply personal. That's why Charlton Park offers a range of thoughtful services to ensure every family's needs are met:

Family-Friendly Options

A comfortable reception area is available for families with young children or larger gatherings. Services can also be streamed live to this space via a large screen.

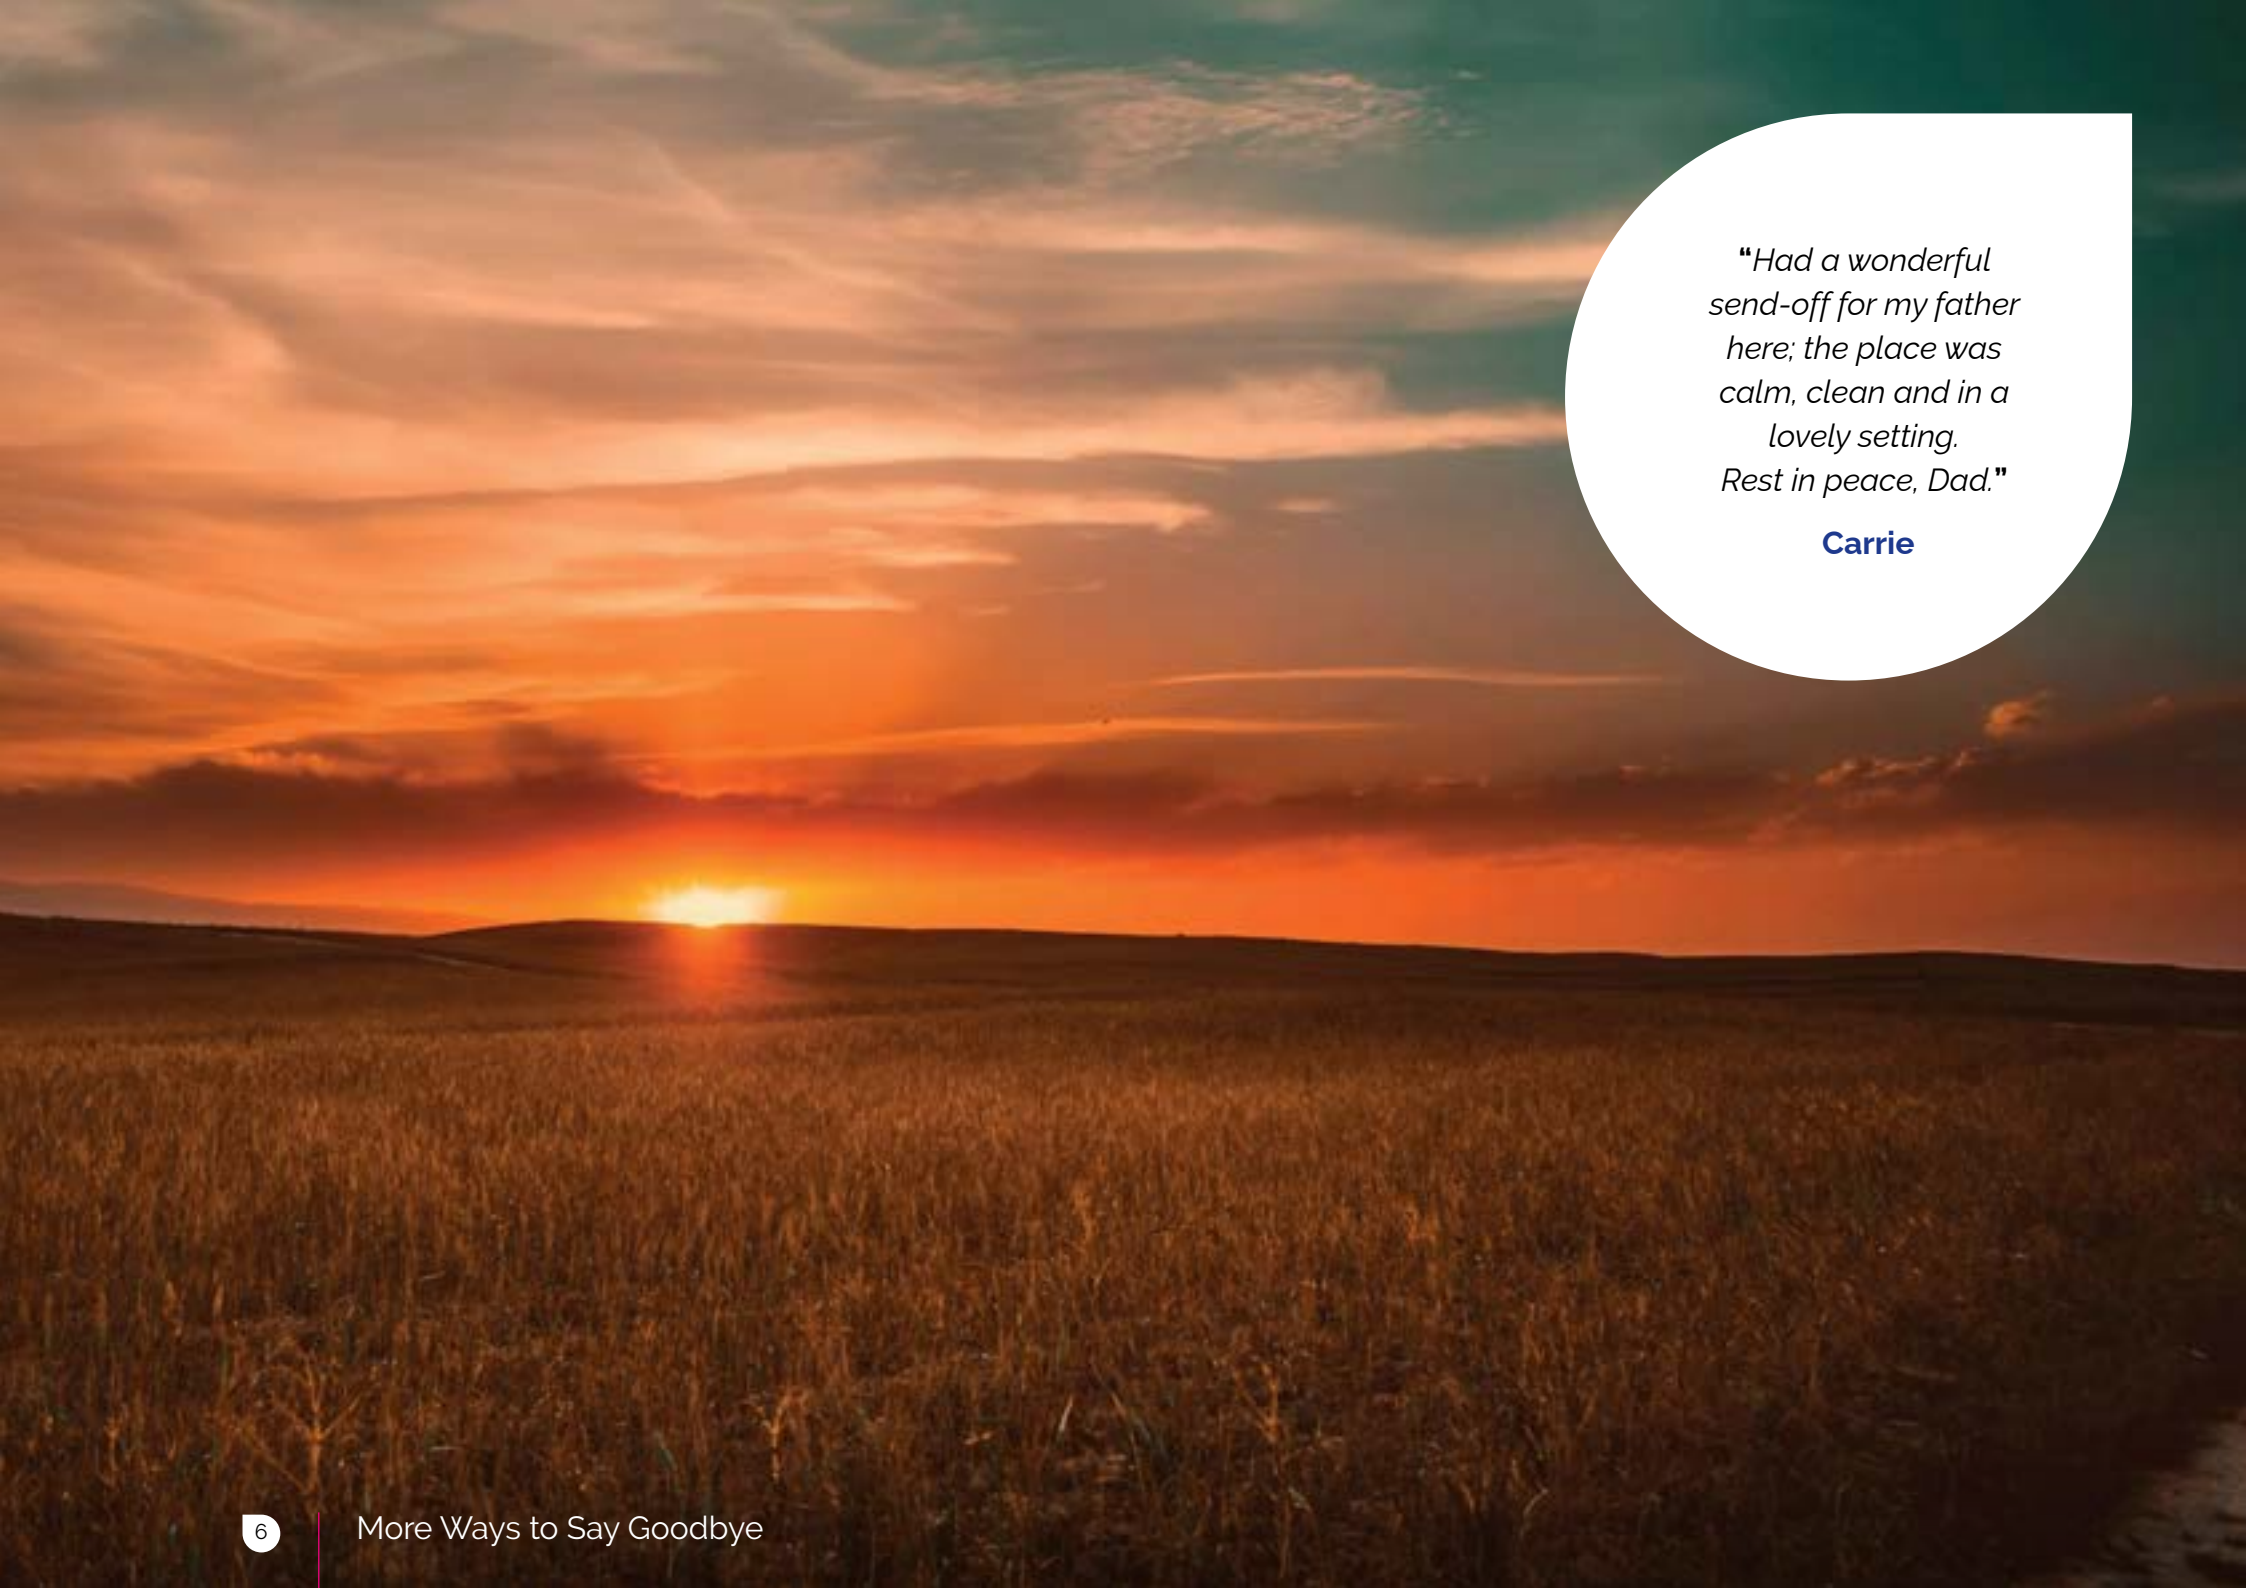

Fully Accessible Facilities

The entire building is designed on a single level, featuring ample parking, accessible toilets, an adjustable lectern, and a hearing loop for visitors' convenience.

Witnessing the Cremation

For those with specific religious or personal wishes, we provide a dignified space to witness the entry of the coffin into the cremator.

*"Had a wonderful
send-off for my father
here; the place was
calm, clean and in a
lovely setting.
Rest in peace, Dad."*

Carrie

More Ways to Say Goodbye

Charlton Park offers the flexibility to create a farewell that feels right for you and your loved ones:

Evening and Weekend Services

Choose a time that works best for family and friends, whether that's a peaceful twilight goodbye or a relaxed weekend celebration of life.

Services are available between 9am and 6pm.

Personalised Tributes

Incorporate music, visual presentations, live streaming, and keepsakes to create a meaningful and accessible service.

Services can be webcast live or recorded for viewing later, ensuring everyone can take part, no matter where they are.

A Commitment to Excellence

The team at Charlton Park is dedicated to delivering outstanding service and thoughtful care for every family:

A Dedicated Team

Our experienced, caring professional team perform a respectful, dignified cremation. They are often praised for the levels of service and care provided to families.

Scattering of Ashes

Charlton Park is set in beautiful parkland. Ashes can be scattered in our Garden of Remembrance or can be returned in an urn to loved ones.

Identity Assurance

We use an advanced hospital tracking system and everyone in our care also gets their own unique identifying ceramic disc.

This disc survives the cremation process intact and stays with their ashes the whole time. It is returned to loved ones along with their ashes in an urn.

Stephanie, Crematorium Manager

Biodegradable Urns

We offer a selection of seven thoughtfully designed biodegradable urns, featuring elegant floral patterns and serene landscapes.

These urns provide a dignified and eco-friendly way to hold your loved one's ashes. The ashes can then be scattered, or if preferred the urn can be buried.

Each urn includes the unique ceramic disc used throughout the cremation process, providing identity assurance.

If you prefer, you are welcome to provide your own urn.
